## RESPONSE

In response to the action mailed September 24, 2002, please amend the application as follows:

In the claims:

Please amend claims 1 and 15 as follows:

1. (Twice Amended) A hybrid integrated circuit device comprising:

a hybrid integrated circuit substrate in which at least a surface is provided with insulation; at least a first electrode and at least a second electrode formed on said surface and being disposed to cover substantially the substrate;

a light emitting element connected with the first and second electrodes, said first and second electrodes configured to reflect light;

a seal which is disposed in a periphery of said substrate; and

a transparent substrate which is fixed to said hybrid integrated circuit substrate via said seal to enclose the first and second electrodes and the light emitting element within a sealed space formed between said hybrid integrated circuit substrate and said transparent substrate.
